Things we offer:

1. **Website building** - $200 (from scratch - to include you own personalized domain name). The $200 covers starting a website from scratch - with your logo, your photos, your personalization. This is all inclusive of the entire website from start to finish.

   If you would like to collect payments via website, the price will be more - up to $500.

2. **Monthly Maintenance** - $50
   This includes everything digital for your business - from website maintenance and updating, creating ads for social media sites, creating designs for flyers/print/etc., videos, Google's My Business, and more. If you need it for your business, this price is all inclusive.

3. If you choose not to do the monthly all-inclusive plan, I can offer each flyer/social media/web creation/logo for a price of $25/each. These will be available as needed.

4. I can teach you how to use your social media accounts OR I can "take over" and do the publishing/advertising for you. These prices will be extra if teaching is involved. If you would like me to "take over," the cost is included in the monthly service price.

5. In the event that items get "messed up" (especially websites), there will be a charge for fixing.

6. I also offer **printed materials**:
   - Business Cards (50 for $20)
   - Flyers/Postcards/Bulletins/Newsletters, etc. by need ($1/each)
   - Signs/Banners by need - possible use of Vistaprint
   - Shipping will be added, if items need shipped OR we can meet somewhere for pickup.

I am sure there will be other items that come up, but we can discuss them in process. Thank you for taking time to consider me for helping you with your business! Please feel free to reach me by call, text, email, or Facebook at any time and I will respond as soon as possible. I look forward to new challenges and creating things that you love, as well as your customers!
